**Industry:** Corporation

### **Business / Organization Description:**

One of the largest marketing communications networks in the world. They service more Fortune Global 500 companies in five or more countries than any other agency.

### **How is PageGate Used/Customer Quote:**

*"The way we use PageGate, here in London, is mainly to allow our network monitoring server to send alerts to our mobiles, by emailing PageGate. We also use PageGate to page our IT guys. This is done through the web client, using the list html template or we use our email system to send the message to PageGate. So we are definitely utilizing PageGate's capabilities and we're very pleased with it's reliability and ease of administration. We are also planning on offering it's services to other departments in our organization , especially in our post room and media department."*
