Company Name: TeleTracking Technologies

Web Address: www.teletracking.com

Industry: Medical / Health Care

Business / Organization Description:

TeleTracking manages patient flow with a host of bed management and patient flow solutions.

How is PageGate Used/Customer Quote:

TeleTracking deploys operational workflow software in diagnostic and procedural areas throughout the care continuum. TeleTracking manages workflow in perioperative spaces, like ORs, freestanding clinics, cancer centers, endoscopy clinics, etc.

TeleTracking utilizes PageGate to send alerts, notifications and messages to their clinicians and operational managers to keep their clients up to date on how these important clinical areas are running.

TeleTracking's clients need real-time insight in order to make the best decisions for their patients, and the TeleTracking software development team appreciates the PageGate service because they are able to focus on building new functionality.
